Hello Linda, we have looked at our schedules and the best time for us would be between 11-1 next Thursday the 23rd. Could you let us know if this specific time would work for you all?
Thanks.

Jennifer McCarter, R.E.M.

Subject: RE: EPA comments on summary notes from July 1, 2020 call

Hello Linda, thank you for providing EPA's input on the meeting summary. I have incorporated the comments. Attached is a final redline and a clean PDF. Please let me know if there is anything I overlooked.

Also, we are updating the draft scope of work for the proposed hydrogeologic investigation, which includes more detail than what we discussed on the call. I expect to be able to send that tomorrow or Monday at the latest. As discussed on our last call, we would like to have a follow up call with the smaller technical group to discuss and finalize the scope. If possible, we'd like to have that call (mid- to late-) next week; would you be able to provide dates/times that your team members are available? The driller is tentatively schedule to begin work the week of August 3rd.

Thank you, and we look forward to our continued discussions.

Jennifer McCarter, R.E.M.

EXTERNAL - STOP & THINK before opening links and attachments.

Jennifer,

Thank you for providing us the meeting notes. We have a few clarifying comments. Please see the attached.

We appreciate your ongoing cooperation and look forward to working with you on the planned site characterization work.

Linda Jacobson
